

Georgia E. Frank Scholarship

Criteria

The mission of the Georgia E. Frank Scholarship Fund is to support graduating Carroll County high school students of all backgrounds and needs as they pursue their dreams of being a teacher. As Georgia was a life-long Family and Consumer Science teacher in Carroll County, this fund aims to invigorate, encourage, and support aspiring young educators as they transition from high school to the collegiate stages of their training. As a teacher, Georgia encouraged her students to love what they do, to do it well, in order to make the world around them a better place to live. We hope this fund provides assistance to similarly minded young people as they pursue their future teaching career.
